SANDWICH

BAY

Keep the hollow part of Leading Mark Island A, in line with the top of Old Main Head B, till within 3 cables length of the former give the Island a berth of that distance while passing it, and then steer out for Entrance Island.

View of the Land over Table hill Cove, showing the mark for clearing the spit off the Main Tickle point.

North Brenton I^t kept as in this view about its own length open to the eastward of the southern one, clear ahead of the spit off the Main Tickle point.
